Vadisaleru, AP - 533294, India

OBJECTIVE

Dedicated and passionate graduate seeking an opportunity in the IT industry to gain real-world experience and build a successful career through continuous learning and commitment.

INTERNSHIP

• Technical Hub

FULL STACK DEVELOPMENT

June 2025

Surampalem, AP

- Collaborated with a team to design and develop a PG Hostel Finder web application using the MERN stack.
- Implemented frontend UI in React.js and connected with Node.js MongoDB backend for real-time data handling.
- Worked on search, filters, and user authentication features to enhance usability.
- Gained hands-on experience in team collaboration, project presentation, and problem-solving under deadlines.

EDUCATION

◦

Aditya University

Master's Of Computer Applications

CGPA: 8.0

◦

Government (Autonomus) College

B.sc, AP

2024

CGPA: 9.24

◦

Divya Junior College

Board of Intermediate Education, AP

2021

Percentage: 87.3

◦

Z.P.HIGH SCHOOL

Board of Secondary Education, AP

2019

PROJECTS

◦

Project A: [Frontend: Event Management System]

Tools: [HTML,CSS,Java Script,React.js]

- * Developed a responsive Event Management frontend application for organizing and viewing events
- * Implemented user-friendly UI components including event listings, search, and filters.
- * Created dynamic forms for event registration and management
- * Ensured cross-browser compatibility and responsive design for seamless user experience.

◦

Project B: [PG HOSTEL FINDER : (MERN Full Stack Application)]

Tools: : [React.js,Node.js,Express.js,MongoDB]

- * Designed and developed a full-stack hostel finder platform for students to search, filter, and review hostels.
- * Implemented RESTful APIs for hostel data (name, price, amenities, contact, location).
- * Created authentication authorization system for admin and users.
- * Applied MongoDB for structured data storage and optimized queries for performance.

SKILLS

- **Programming Languages:** Java ,Python(Basics)
- **Web Technologies:** HTML ,CSS ,JAVA SCRIPT ,REACT.
- **Backend Technologies** Node js , Express js ,
- **Database Systems:** Mongo DB , MYSQL
- **Customer Service Tools :** MS Office (Word, Excel, PowerPoint), Email Handling

CERTIFICATIONS

- **Java Script Essentials 1 , 2 From Cisco**
- **Full Stack Development** From Technical Hub
- **Java (Basics) from HackerRank**

July 2025

June 2025

Dec 2025
